

SRMC + Technology Plus

Your Complete Security Solution

We live in a world that is connected by networks and fiber. It's highly likely every major piece of tech in your organization can be accessed and managed over your network - which presents a new world of security risks that need to be addressed.

IT now owns the structure for everything connected over the internet as well as security which means you need the expertise to make sure that everything that is connected, stays secure.

We offer all things physical security and internet, together.

SRMC and Technology Plus partner to use their real-world experience and technical expertise to safeguard leading businesses and organizations worldwide, in diverse industries: Education, Healthcare, Corporate, Government, Retail, Architecture & Engineering, and Cultural Properties, among others.

Together we bring a complete turnkey operation - SRMC handles the physical security side of the house - initial assessment and technology design while Technology Plus brings the engineering and network pieces together.

SRMC	<p>Assessments - assess ongoing threats & risk vulnerabilities</p> <p>Planning - mitigation strategy planning based on assessment findings</p> <p>Design - physical security design of systems, technology & strategy</p>	Technology Plus	<p>Assessments - assess network infrastructure and requirements</p> <p>Planning - what infrastructure needs to be in place for everything to work together</p> <p>Design - make sure network structure is supporting physical security and other systems</p>

Founded in 1989, Security Risk Management Consultants, LLC (SRMC) is a professional, independent security consultancy serving clients throughout the United States and abroad. In the past ten years alone, we have worked in over thirty-nine states as well as the District of Columbia, Cayman Islands, China, Egypt, India, Ireland, the Netherlands, Saudi Arabia, Singapore, Spain, and the United Arab Emirates. SRMC is a certified Woman's Business Enterprise (WBE) and Woman-Owned Small Business (WOSB) through the Women's Business Enterprise Council (WBENC). We are headquartered in Columbus, OH with satellite offices in Cleveland, OH, Ann Arbor, MI, Venice, FL, and Huntsville, AL. We are fully licensed in both states that require it to perform security consulting services: Nevada (2315) and Virginia (11-8042).

SRMC provides security vulnerability assessment, master planning, design development, technical specification, and project and program review and management support services to a wide range of public and privately-owned occupancies. With a strong focus on "campus" environments, we serve state and local government, DoD/DoE and other research complexes, data centers, critical infrastructure, corporate offices, manufacturing, healthcare and hospital facilities, K-12 public, private and boarding schools, colleges and universities, financial services, multi-residential housing units, large-scale retail venues, mixed-use developments, houses of worship, and cultural properties, among others.

Most organizations are looking for a strategic partner to help them work through the tough security concerns that keep them up at night. We can help plan, design, and execute a custom security solution for your company. With over 32 years of experience, we understand the intricacies of our industries and can help you keep your locations, assets, teams and customers safe.

Technology Plus (TPI) founded in 1991, is an independent consulting and engineering firm with over 400 clients based in Denver, Colorado with satellite offices in Los Angeles and Phoenix. Servicing commercial, federal, state, municipal, healthcare, aviation, and hospitality clients, TPI specializes in technology convergence and collaboration, and counsels our clients on how new advances in communications, security, the internet of things (IOT), and artificial intelligence (AI) will affect their long and short-term technology investment goals.

TPI provides clients with an unbiased business needs analysis inclusive of software, hardware, and services. TPI also provides delivery methodologies inclusive of on-premise, cloud, and/or hybrid solutions. Unlike many other consulting firms, TPI invests heavily in actively participating in our Vendor Liaison Consulting Programs with both the leading and emerging technology solution vendors. This keeps TPI abreast of new technologies as they emerge and provides our clients a holistic and strategic view of the latest technological innovations.
